# SETAGAYA CITY

Setagaya City Basic Plan

Summary

FY 2024 ▶ FY 2031

Creating together a Setagaya where all generations can continue to live with peace of mind while securing a sustainable future

City of Setagaya

Chapter 1: About the Plan Development

## ■ Background of Plan Development

Since September 2013, when the Setagaya City Basic Concept was approved by the City Assembly, the City has been advancing initiatives through cross-sectoral coordination via matching and through participation and collaboration with residents and businesses. Looking ahead to the City's 100th anniversary, we will further advance initiatives to realize the goals and principles embodied in the Basic Concept through this new Basic Plan.

■ Plan Status and Duration

(1) Plan Status

This is the City's highest-level administrative plan and serves as the basic guideline for city administration, clarifying the direction of policies and measures that the City will focus on over the next eight years.
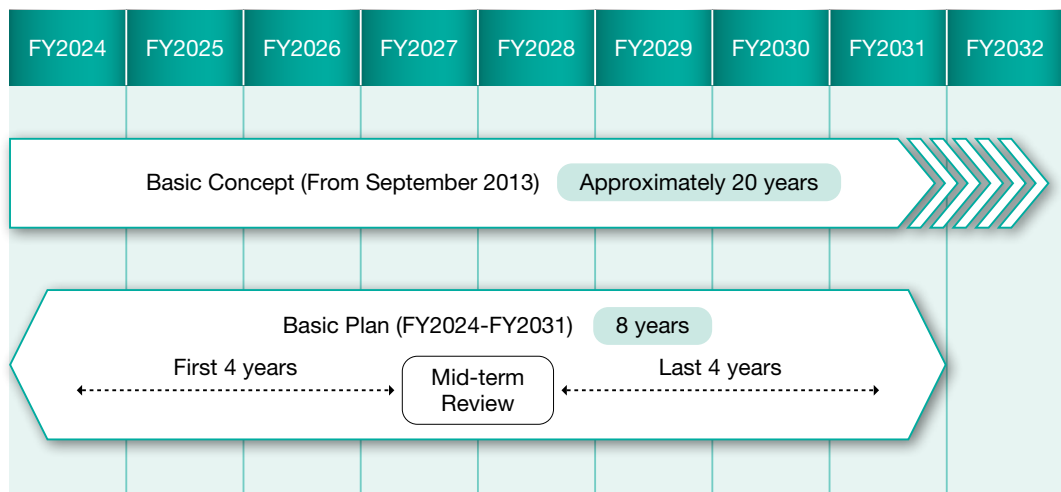

Setagaya City Planning System

Plan for the Transition to New Administrative Management

DX Promotion Policy

Comprehensive Plan for Managing Public Facilities

Plan for Promoting Community Administration

etc.

Basic Concept — Public Guidelines for the Next 20 Years (Approved by City Assembly in September 2013)

Basic Plan — Basic Guidelines for City Administration (City's Highest-Level Plan)

Action Plans

Individual Field Plans — Individual Plans Created for Each Field
(Example) Basic Environmental Plan
Comprehensive Plan for Community Health, Medical Care and Welfare
Children's Plan
Basic Plan for the Promotion of Education, etc.

(2) Plan Period

The plan covers an eight-year period from FY2024 to FY2031. By conducting a mid-term review, we will make it a dynamic and practical plan that can better reflect changes in social conditions and other factors.

Plan Period

FY2024	FY2025	FY2026	FY2027	FY2028	FY2029	FY2030	FY2031	FY2032

Basic Concept (From September 2013)　Approximately 20 years

Basic Plan (FY2024-FY2031)　8 years

First 4 years　Mid-term Review　Last 4 years

Chapter 2: Background of Plan Development

■ Social Trends

- We are facing a situation where the previous trend of continuous population growth can no longer be expected.
- Unprecedented global events such as the pandemic and climate crisis have become issues that could fundamentally shake the foundations of city administration.
- Residents' lives and local industries are under severe pressure due to inflation and other factors. Additionally, the situation surrounding the City is becoming increasingly challenging due to concerns about widening income disparities and social division within communities, as well as issues such as aging social infrastructure.

■ Population (Composition Ratio)

Elderly Population (Ages 65 and over)
20.4%
Child Population (Ages 0-14)
11.6%
FY2023
68.0%
Working-age Population (Ages 15-64)

Elderly Population (Ages 65 and over)
27.1%
Child Population (Ages 0-14)
9.2%
FY2043
63.7%
Working-age Population (Ages 15-64)

In light of these rapid changes in social conditions, significant transformations are required in city administration.

■ Future Vision for Setagaya to Pursue

Regarding Residents' Lives	▶ Promote positive community development that leads to residents' voluntary participation and proactive engagement ▶ Create an environment where it is easy to have and raise children, and where young people can be active ▶ Secure diverse learning opportunities to ensure children's future potential, etc.
Regarding Local Economy	▶ Promote the development of existing businesses ▶ Advance infrastructure development that supports the emergence and growth of new businesses ▶ Promote the development of community businesses and social enterprises, etc.
Regarding Urban Infrastructure	▶ Advance disaster-resistant urban development with enhanced disaster prevention and mitigation measures ▶ Maintain, preserve, and develop public transportation infrastructure ▶ Create an attractive and vibrant city that people choose to live in, etc.
Regarding Natural Environment	▶ Advance actions to stop and reverse the loss of biodiversity and ecosystems ▶ Aim for coexistence with nature while bringing out nature's diverse potential ▶ Promote initiatives to transform people's behavior, lifestyle, and society's direction, etc.
Regarding City Administration	▶ Fully recognize the limitations of resources and assets, and seek to optimize administrative effects ▶ Further promote digitalization of administrative services and improve convenience for residents ▶ Realize city administration that continuously reforms and can flexibly respond to constantly changing circumstances, etc.

Chapter 3: Basic Policies

<table>
<tr><td>

Directional Goals for City Administration

</td><td>

Creating together a Setagaya where all generations can continue to live with peace of mind while securing a sustainable future

</td></tr>
</table>

We aim to promote community development where all generations, from infants to the elderly, can continue to live with peace of mind, while properly maintaining and conserving the global environment and ecosystems, ensuring a future where options and possibilities expand without compromising what future generations will need.

■ Plan Principles

The following six principles are established as the fundamental thinking that forms the foundation throughout the entire plan:

Build on Participation and Collaboration

We will establish participation and collaboration as the foundation for policy and measure development in city administration. We will also promote community development that encourages residents' voluntary participation.

Protect Residents' Lives and Health

Protecting residents' lives and health is the highest priority for a local government. We will continue to address this comprehensively, considering not only physical health but also mental well-being and spiritual enrichment.

Center Children and Youth

We will clearly position children and youth as key actors in creating the community together, and develop policies and measures focusing on their present circumstances to make participation accessible and help them feel they are at the center of society.

Respect and Utilize Diversity

We will respect and utilize diversity broadly, from age, gender, sexual orientation and gender identity including LGBTQ, nationality, cultural differences and whether or not one has a disability, to diverse values, family structures and lifestyles, so that people of different positions and values can build society together.

Consider District and Community Characteristics

We will develop policies and measures that accurately capture residents' needs while fully considering the characteristics and challenges of each district and community.

Connect Daily Life with Disaster Prevention and Environmental Measures

We will develop policies and measures while consistently linking daily life with disaster prevention and environmental measures.

■ Basic Approach to Community Administration

We will promote comprehensive administrative services and community development that respond to the actual conditions of districts and communities, thereby realizing a safe and secure local society where people can live comfortably.

Fundamental Initiatives

- Resolution of district and community issues
- Promotion of community welfare (Enhancement of community-based integrated care system)
- Improvement of community disaster prevention capabilities
- Enhancement of administrative services
- Promotion of diverse community development and resident participation
- Development of safe and attractive communities
- Enhancement of the community administrative management system
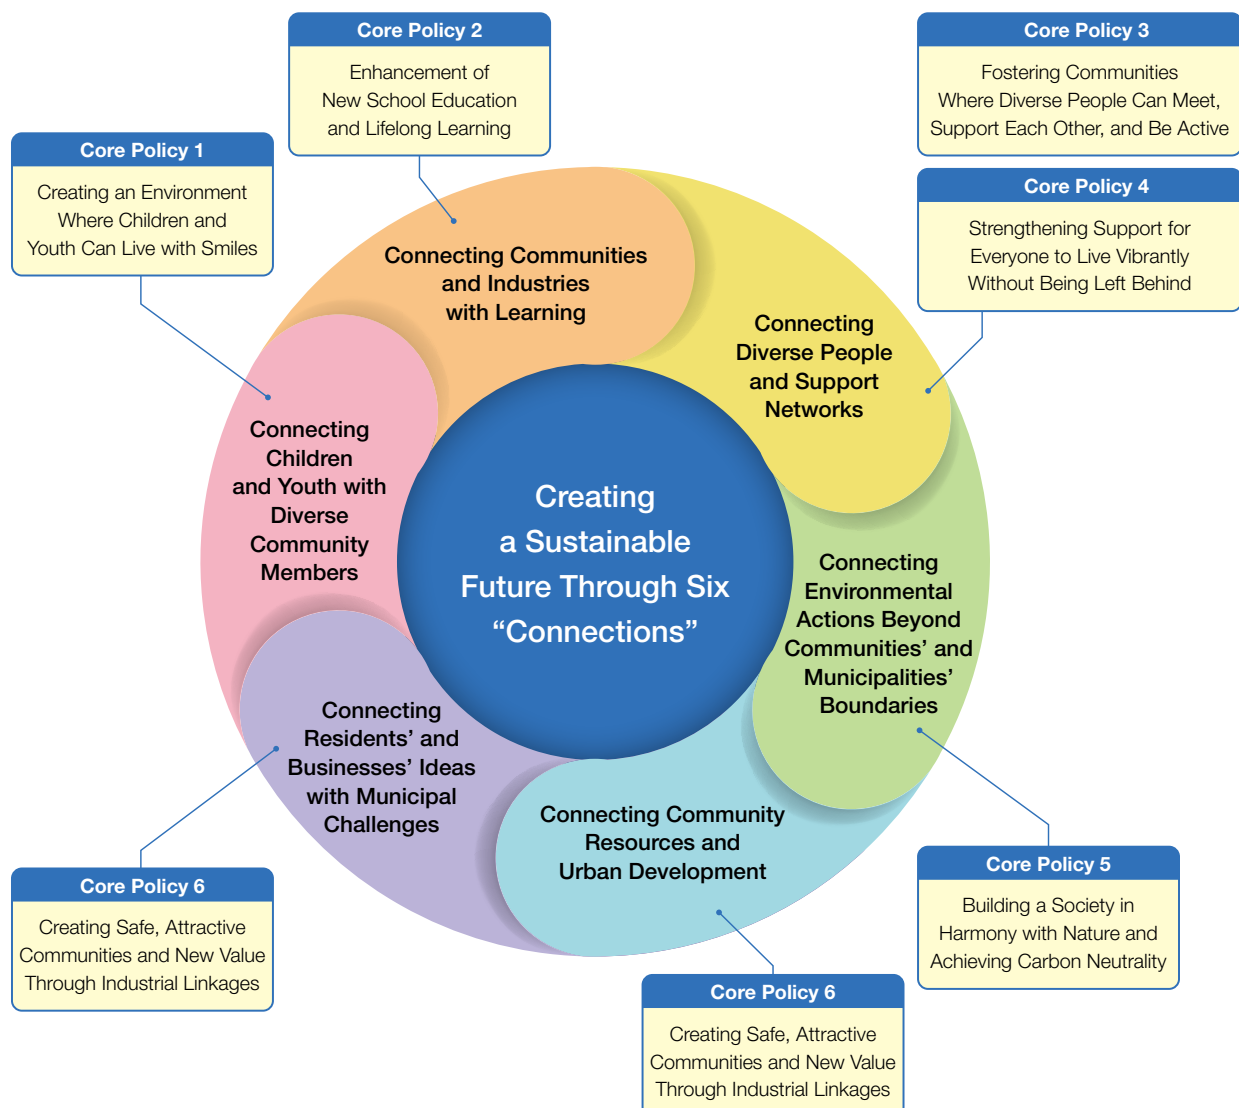

Chapter 4: Policies

Core Policies

These are policies that directly contribute to achieving the goals of our Basic Policies and are essential for implementing the Basic Plan. The following six areas are designated as core policies that require particularly focused efforts and cross-sectoral organizational structures.

■ Vision Portrayed by Core Policies

By implementing these six core policies, we aim to create six types of "connections":
- Connections between children/youth and diverse community members
- Connections between community/industry and learning
- Connections in support networks formed through encounters among diverse people
- Connections in environmental actions beyond community and municipal boundaries
- Connections between community resources and urban development
- Connections between residents'/businesses' ideas and municipal challenges

Through these connections, we aim to ensure sustainability in residents' lives, local economy, urban infrastructure, natural environment, and city administration, ultimately realizing a community where all generations can continue to live with peace of mind.

Core Policy 2
Enhancement of New School Education and Lifelong Learning

Core Policy 3
Fostering Communities Where Diverse People Can Meet, Support Each Other, and Be Active

Core Policy 1
Creating an Environment Where Children and Youth Can Live with Smiles

Core Policy 4
Strengthening Support for Everyone to Live Vibrantly Without Being Left Behind

Connecting Communities and Industries with Learning

Connecting Diverse People and Support Networks

Connecting Children and Youth with Diverse Community Members

Creating a Sustainable Future Through Six "Connections"

Connecting Environmental Actions Beyond Communities' and Municipalities' Boundaries

Connecting Residents' and Businesses' Ideas with Municipal Challenges

Connecting Community Resources and Urban Development

Core Policy 6
Creating Safe, Attractive Communities and New Value Through Industrial Linkages

Core Policy 5
Building a Society in Harmony with Nature and Achieving Carbon Neutrality

Core Policy 6
Creating Safe, Attractive Communities and New Value Through Industrial Linkages

Core Policy ① Creating an Environment Where Children and Youth Can Live with Smiles

Connecting Children and Youth with Diverse Community Members

Vision

- Children and youth have opportunities to express their opinions and be themselves in all places they spend time, and there are places and opportunities where they can feel safe and secure while valuing their own mind and body, in an environment they can freely choose.
- Children and youth can feel their self-affirmation, self-worth, and sense of agency as valued members of society as they grow up connected to diverse people.
- As a "City Supporting Children and Child-rearing," children, youth, and child-rearing families can feel they are warmly watched over, supported, and encouraged by people around them in the community.

Performance Indicators

Indicator Name	Unit	Current Status (FY2023)	Mid-term Target (FY2027)	Final Target (FY2031)
Percentage of children and youth who like themselves*	%	Children: 54.8 Youth: 62.2	Children: 60 Youth: 66	Children: 65 Youth: 70
Number of community resources supporting children, youth and child-rearing**	Locations	1,056	1,088	1,101

* Based on a survey of elementary school (upper grades) and junior high school students for children, and those aged 15-29 for youth.
** Facilities and places for children such as those related to children and youth, child-rearing support facilities, and children's gathering places.

Perspective

■ Children and Youth Growing Up While Meeting and Being Watched Over by Diverse People in the Community

We will implement cross-cutting initiatives with two key elements. First, we will ensure opportunities for children themselves to learn about their rights. Second, we will widely share the importance of adults—who interact with children at home, school, and in the community—understanding children's rights, listening to their voices, respecting their thoughts, and thinking together with them. Furthermore, we will pursue initiatives to transform adult perspectives, ensuring that "the best interests of the child" can be practically implemented within the community. Additionally, we will advance preventive measures so that children and youth can grow up healthy and sound. These measures will ensure they are protected and supported by community members, without having their fundamental rights violated.

Core Measures

Field	Measure
Children/Youth	Creation of an environment that protects children's rights and their best interests
Children/Youth	Enhancement of environment supporting children's growth
Children/Youth	Enhancement of high-quality early childhood education and childcare
Children/Youth	Promotion of support for child-rearing families
Children/Youth	Support for children and child-rearing families who need assistance
Children/Youth	Enhancement of environment where youth can play active roles
Children/Youth	Support for youth facing difficulties
Health/Welfare	Development of residential environment where people can live with peace of mind
Economy/Industry	Promotion of business development and diverse working styles
Economy/Industry	Promotion of social businesses aimed at solving local and social issues

Enhancement of New School Education and Lifelong Learning

Connecting Communities and Industries with Learning
Vision

● Secure learning opportunities that respond to children's diversity, ensuring that all children can have their future potential protected through personalized learning that enables them to support one another and learn collaboratively.

● Anyone can learn at any time and as many times as they wish, taking on various challenges while maintaining motivation and purpose in life, living in harmony with their life stages.

Performance Indicators

Indicator Name	Unit	Current Status (FY2023)	Mid-term Target (FY2027)	Final Target (FY2031)
Percentage of children/students who feel learning is enjoyable	%	Elementary: 77.1 Junior High: 69.5	Elementary: 82 Junior High: 74	Elementary: 86 Junior High: 78
Percentage of residents who feel learning has become more accessible in daily life	%	69.5	71	73

Perspective

■ Shifting to Child-Centered Education

Regarding child-centered education that reflects children's opinions, we are responding to diverse learning needs while deepening shared understanding with all stakeholders involved in children's learning and development.

■ Every Individual, Both Children and Adults, as Learning Agents

We will advance initiatives with the perspective that both children and adults are agents of their own learning, making self-directed learning the foundation of all learning while designing their own lives.

■ Connecting Community/Industry with Learning

We will promote initiatives where local communities, schools, educational institutions, and social resources collaborate to expand diverse learning opportunities, while ensuring individual initiatives lead to concrete outcomes. Additionally, we will provide challenging opportunities to develop and nurture talent that creates new value. Through this, we aim to cultivate an environment where two outcomes can emerge: innovation in local industry and solutions to social issues, alongside the development of human resources to support these advances.

Core Measures

Field	Measure
Education	Promotion of career and future design education
Education	Further advancement of education DX
Education	Promotion of education that embraces diverse individuality
Education	Development of learning environments that acknowledge diversity and individuality
Education	Enhancement of consultation/support systems and reinforcement of coordination
Education	Enhancement of diverse learning environments and safe spaces
Education	Creation of new library functions as a hub for knowledge, learning, and cultural information
Education	Enhancement of regular civic learning and promotion of social participation
Education	Promotion of cultural assets conservation and awareness activities
Economy/Industry	Promotion of business development and diverse working styles
Economy/Industry	Promotion of social businesses aimed at solving local and social issues

Core Policy **3**

Fostering Communities Where Diverse People Can Meet, Support Each Other, and Be Active

Connecting Diverse People and Support Networks

Vision

● New connections emerge among local residents, leading to increased motivation for participation in community activities and enhanced resident participation in district and local affairs.

Performance Indicators

Indicator Name	Unit	Current Status	Mid-term Target	Final Target
		(FY2023)	(FY2027)	(FY2031)
Percentage of residents who feel and can say they have connections with people in the community	%	63.3	66	68

Perspective

■ Building Gentle Connections

We are working to create places and opportunities for gentle connections where people can engage in community activities together. We utilize local resources that can serve as safe spaces, while enabling people to connect through cultural activities, sports, and other activities. Through these efforts, we aim to make it possible for anyone to connect with others anywhere in the community.

Core Measures

Field	Measure
Health/Welfare	Promotion of proactive health development
Health/Welfare	Comprehensive promotion of long-term care prevention
Health/Welfare	Development of sustainable community support systems
Disaster/Crisis Management	Enhancement of community disaster prevention capabilities
Culture/Sports	Creation of an environment where everyone can experience and enjoy culture and arts
Culture/Sports	Revitalization of cultural and artistic activities by supporting community group exchanges
Culture/Sports	Promotion of health through sports
Culture/Sports	Realization of a vibrant society through sports
Human Rights/Community	Promotion of community engagement and vitalization of local activities
Human Rights/Community	Promotion of collaboration and cooperation among residents and activity groups

Strengthening Support for Everyone to Live Vibrantly Without Being Left Behind

Connecting diverse people and support networks

Vision

● All residents' human rights are respected, and regardless of age, gender, sexual orientation and gender identity including LGBTQ, nationality, or whether or not one has a disability, they can fully demonstrate their individuality and abilities based on their own will, living vibrantly with dignity in their communities.

● People who need support can have their wishes respected, connect to consultation services, support, and participation opportunities, and can live with peace of mind knowing they will receive necessary support even in times of disaster.

Performance Indicators

Indicator Name	Unit	Current Status	Mid-term Target	Final Target
		(FY2023)	(FY2027)	(FY2031)
Number of community resources that can serve as gathering places and support for local residents*	Locations	1,816	1,890	1,970

*Facilities related to children and youth, community salons, and multi-generational exchange venues.

Perspective

■ Increasing Options

We are working to develop systems for proper information sharing between residents and related organizations, while strengthening the identification and networking of community resources that can connect with local residents and serve as gathering places and support.

Core Measures

Field	Measure
Children/Youth	Support for children and child-rearing families who need assistance
Children/Youth	Support for youth facing difficulties
Health/Welfare	Comprehensive promotion of long-term care prevention
Health/Welfare	Enhancement of accessible welfare consultation and community development
Health/Welfare	Development of sustainable community support systems
Health/Welfare	Development of residential environment where people can live with peace of mind
Health/Welfare	Initiatives toward solving local community issues
Health/Welfare	Promotion of coordination between home medical care and nursing care
Health/Welfare	Enhancement of welfare personnel recruitment, training, and retention
Disaster/Crisis Management	Enhancement of community disaster prevention capabilities
Disaster/Crisis Management	Reinforcement of health crisis management systems
Culture/Sports	Realization of an inclusive society through sports
Human Rights/Community	Promotion of human rights understanding
Human Rights/Community	Promotion of gender equality
Human Rights/Community	Domestic violence (DV) prevention initiatives
Human Rights/Community	Promotion of multicultural coexistence
Human Rights/Community	Promotion of community engagement and vitalization of local activities

Core Policy 5

Building a Society in Harmony with Nature and Achieving Carbon Neutrality

Connecting Environmental Actions Beyond Communities' and Municipalities' Boundaries

Vision

- Residents can live their daily lives while experiencing the rich blessings of nature, addressing climate change that threatens residents' lives, and protecting the health of ecosystems supported by diverse living beings.
- Residents and businesses protect and nurture networks of greenery and living creatures centered around nearby natural features such as the Kokubunji cliff line and large parks, advancing and passing down initiatives for coexistence with nature. Additionally, there is widespread recognition of the impacts and effects on the climate crisis, and a carbon-neutral local society has been realized through the transformation to carbon-neutral lifestyles and business practices.

Performance Indicators

Indicator Name	Unit	Current Status (FY2023)	Mid-term Target (FY2027)	Final Target (FY2031)
Percentage of residents who value and actively protect and nurture nearby greenery and nature	%	32.4	41.2	50
Greenery rate	%	24.38	29	32.2
CO_2 emissions within the City	Thousand tons-CO_2	2,517 (FY2020)	1,493	1,152 (FY2030)

Perspective

■ Expanding the Circle of Initiatives from Awareness to Action

We aim to advance initiatives that generate high impact through cooperation among diverse entities, such as collaborative efforts between multiple departments within the City, initiatives between municipalities, and cooperation with businesses. We will work to further spread these initiatives to create synergistic effects in implementing measures, with the goal of expanding their reach even further.

Core Measures

Field	Measure
Education	Development of learning environments that acknowledge diversity and individuality
Disaster/Crisis Management	Development of flood control measures in urban planning
Environment/Recycling/Greenery	Support for carbon-neutral actions by residents and businesses
Environment/Recycling/Greenery	Implementation of carbon neutrality in public facilities and City administrative activities
Environment/Recycling/Greenery	Promotion of community environmental beautification activities
Environment/Recycling/Greenery	Development of waste reduction and resource recycling society
Environment/Recycling/Greenery	Conservation and creation of Setagaya-style greenery
Environment/Recycling/Greenery	Conservation of biodiversity
Environment/Recycling/Greenery	Promotion of green community development through collaboration
Economy/Industry	Promotion of social businesses aimed at solving local and social issues
Economy/Industry	Promotion of business activities and ethical consumption considering local economic sustainability

Connecting
Community
Resources and
Urban Development

Connecting
Residents' and
Businesses' Ideas
with Municipal
Challenges

Core Policy 6

Creating Safe, Attractive Communities and New Value Through Industrial Linkages

Vision

- Urban infrastructure including road transportation networks has been developed, and community development with high resilience against disasters such as earthquakes and typhoons has progressed, allowing residents to live with safety and security.
- An attractive community has been developed where everyone can comfortably move to places for activities and interaction, with creation of good living environments through conservation of historic landscapes, formation of streetscapes, and development of parks
- New value has been created through strengthened cooperation between industries that support daily life (wholesale, retail, food service, construction, welfare industries, etc.) and industries that solve existing industrial and social challenges (IT, environmental, etc.), as well as entrepreneurs, leading to the development of the local economy.

Performance Indicators

Indicator Name	Unit	Current Status (FY2023)	Mid-term Target (FY2027)	Final Target (FY2031)
Percentage of residents who feel disaster-resistant community development is progressing	%	44.7	48	51
Percentage of residents who feel their community is attractive and vibrant	%	66	67	68
Percentage of businesses who consider it easy to conduct business activities	%	30.7	35	40
Level of sustainable local economic development*	Points	100	130	135

*A composite index comprehensively measuring multiple indicators related to local industry revitalization and business environment improvement.

Perspective

■ Considering District and Community Characteristics and Effectively Utilizing Community Resources

We will enhance community appeal through several approaches. First, we will improve community safety and revitalize local communities by creating new spatial value through public-private integration - including public facilities and public spaces in private facilities. We will also promote the utilization of vacant houses and other properties. Additionally, we will work to match administrative needs in detail while sharing district and community challenges and gaining understanding and cooperation from the community and businesses.

■ Connecting More Ideas from Residents and Businesses to Problem-Solving

We will promote further development of existing industries and solve local challenges by connecting diverse and complex community issues with ideas from residents and businesses from a business perspective, while fostering mutual connections.

Core Measures

Field	Measure
Disaster/Crisis Management	Enhancement of community disaster prevention capabilities
Disaster/Crisis Management	Development of earthquake-resistant communities
Disaster/Crisis Management	Urban pre-disaster recovery planning
Disaster/Crisis Management	Development of flood control measures in urban planning
Disaster/Crisis Management	Development of communities that are safe and secure in daily life
Economy/Industry	Reinforcement of foundations for ensuring sustainability of diverse local industries
Economy/Industry	Promotion of business development and diverse working styles
Economy/Industry	Promotion of social businesses aimed at solving local and social issues
Urban Development	Promotion of community development based on district characteristics
Urban Development	Creation of attractive and vibrant hubs
Urban Development	Creation of walkable, attractive areas
Urban Development	Revitalization of local public transportation

Field-Specific Policies

We will systematically organize policies in each field to realize the "Nine Visions" established in the Basic Concept, while clarifying the challenges and directional goals of measures in each field.

Field	Policy	
Children/Youth	Policy 1	Creating an Environment Where Every Child Can Grow Up Freely
	Policy 2	Development of Environment for Secure Child-Rearing
	Policy 3	Creating an Environment Where Youth Can Play Active Roles
Education	Policy 4	Promotion of New School Education
	Policy 5	Strengthening Support for School Non-Attendance
	Policy 6	Enhancement of Lifelong Learning
Health/Welfare	Policy 7	Promotion of Health Development
	Policy 8	Reinforcement of Welfare Support Networks
	Policy 9	Promotion of Community Welfare and Infrastructure Development
Disaster/Crisis Management	Policy 10	Development of Safe and Secure Communities
	Policy 11	Development of Disaster-Resistant Communities
Environment/ Recycling/Greenery	Policy 12	Promotion of Carbon Neutrality
	Policy 13	Creation of a Comfortable and Easy-to-Live Environment
	Policy 14	Conservation and Creation of a Rich and Natural Environment
Economy/Industry	Policy 15	Realization of a Sustainable Local Economy
Culture/Sports	Policy 16	Promotion of Culture and Arts
	Policy 17	Promotion of Lifelong Sports
Urban Development	Policy 18	Development of Attractive Communities
	Policy 19	Development of Transportation Infrastructure
	Policy 20	Development and Renewal of Urban Infrastructure
Human Rights/Community	Policy 21	Respect for Diversity
	Policy 22	Promotion of Community Development

Children/Youth

Policy 1 — Creating an Environment Where Every Child Can Grow Up Freely

Related SDGs Goals

Vision

The entire community has a perspective that ensures children's rights and their best interests as rights-holders, creating a community where children can develop their ability to live independently while maintaining self-esteem within the community.

Performance Indicators

Indicator Name	Unit	Current Status (FY2023)	Mid-term Target (FY2027)	Final Target (FY2031)
Percentage of children who like themselves*	%	54.8	60	65

*Based on a survey of elementary school (upper grades) and junior high school students

Core Measures

- Creating an environment that protects children's rights and their best interests
- Enhancement of environment supporting children's growth
- Enhancement of high-quality early childhood education and childcare

Policy 2 — Development of Environment for Secure Child-Rearing

Related SDGs Goals

Vision

All child-rearing families can live with peace of mind, connecting with community members and child-rearing support in their daily lives without becoming isolated from pregnancy onward. Additionally, there are enhanced places and opportunities where various generations and households supporting child-rearing can interact, creating a community where children can grow up healthily.

Performance Indicators

Indicator Name	Unit	Current Status (FY2023)	Mid-term Target (FY2027)	Final Target (FY2031)
Percentage of parents who feel it is easy to raise children in the environment	%	73.2	74	75
Number of community resources supporting children, youth and child-rearing	Locations	1,056	1,088	1,101

Core Measures

- Promotion of support for child-rearing families
- Support for children and child-rearing families who need assistance

Policy 3 — Creating an Environment Where Youth Can Play Active Roles

Related SDGs Goals

Vision

By promoting youth's proactive activities and creating opportunities for cross-generational encounters and exchanges, young people can participate and engage actively in community activities, becoming key actors in the community as leaders of the next generation. Additionally, youth facing difficulties such as social withdrawal can be supported by consultation services and by safe spaces of their own choosing, enabling them to live their lives in their own way with peace of mind.

Performance Indicators

Indicator Name	Unit	Current Status (FY2023)	Mid-term Target (FY2027)	Final Target (FY2031)
Percentage of youth who want to be helpful to people close to them and society*	%	89.4	90	92
Percentage of youth who have been involved in hobby activities, events, volunteering, etc., outside of school or work*	%	27.6	30	35

*Based on responses from residents aged 18-39 in the residents' awareness survey.

Core Measures

- Enhancement of environment where youth can play active roles
- Support for youth facing difficulties in life

Education
Policy 4 — Promotion of New School Education

Related SDGs Goals

Vision

Students engage in inquiry-based learning where they think about local issues, their interests, and themes they are passionate about, leading to a qualitative transformation in learning. While schools provide education that nurtures each individual's diverse qualities and abilities, they are also realizing high-quality education that develops the essential foundations for all children to thrive in this rapidly changing era and future society.

Performance Indicators

Indicator Name	Unit	Current Status	Mid-term Target	Final Target
		(FY2023)	(FY2027)	(FY2031)
Percentage of children/students who feel learning is enjoyable	%	Elementary: 77.1 Junior High: 69.5	Elementary: 82 Junior High: 74	Elementary: 86 Junior High: 78

Core Measures

- Promotion of career and future design education
- Further advancement of education DX
- Promotion of education that embraces diverse individuality
- Creating learning environments that acknowledge diversity and individuality

Policy 5 — Strengthening Support for School Non-Attendance

Related SDGs Goals

Vision

Appropriate measures are being taken for early detection, prevention, and preventing escalation of bullying, while educational consultation both within and outside schools and support for school non-attendance has been enhanced. A support system has been established to assist in problem-solving between children/students and their guardians. Additionally, by accurately understanding the situations of children/students and guardians, support policies tailored to their diversity and individual characteristics have been established. Through the implementation of diverse programs that consider ICT utilization, children can now choose safe spaces and learning venues outside of school among other options, enabling support appropriate to each individual's circumstances. As a result, the percentage of children/students not connected to any support is decreasing.

Performance Indicators

Indicator Name	Unit	Current Status	Mid-term Target	Final Target
		(FY2023)	(FY2027)	(FY2031)
Percentage of non-attending children/students* who are receiving some form of support	%	76	82	86

*Non-attending children/students who have accumulated 30 or more days of absence during the school year.

Core Measures

- Enhancement of consultation/support system and reinforcement of coordination
- Enhancement of diverse learning venues and safe spaces

Policy 6 — Enhancement of Lifelong Learning

Related SDGs Goals

Vision

District residents of all ages can learn whenever they wish, with enhanced learning opportunities and venues. Additionally, diverse human resources have become social assets, and community development is expanding through cooperation and collaboration.

Libraries have become information hubs for knowledge, learning, and culture, as well as 'knowledge' bases for local culture and history, serving as places for community exchange and intellectual gathering spaces open to the community.

Residents cherish Setagaya City, and while taking great care of its history and culture, they conserve and utilize many cultural assets, ensuring the reliable inheritance of valuable cultural assets to the next generation.

Performance Indicators

Indicator Name	Unit	Current Status	Mid-term Target	Final Target
		(FY2023)	(FY2027)	(FY2031)
Percentage of residents who feel learning has become more accessible in daily life	%	69.5	71	73

Core Measures

- Creation of new library functions as a hub for knowledge, learning, and cultural information
- Enhancement of regular civic learning and promotion of social participation
- Promotion of cultural assets conservation and awareness activities

Health/Welfare

Policy 7 — Promotion of Health Development

Related SDGs Goals: 3 GOOD HEALTH AND WELL-BEING

Vision

Throughout all generations, each resident has an interest in their own health and proactively engages in health promotion initiatives, while support systems ensuring both physical and mental well-being have been established, allowing residents to live healthily and with peace of mind. Additionally, elderly residents can live vibrantly with purpose in their familiar communities through diverse efforts of long-term care prevention based on mutual support among residents and cooperation with service providers.

Performance Indicators

Indicator Name	Unit	Current Status (FY2023)	Mid-term Target (FY2027)	Final Target (FY2031)
Percentage of residents who feel they can live healthily and spiritually enriched throughout their lives	%	77.7	79	80
Heathy life expectancy at age 65 (requiring long-term care level 2)	Years	Male: 83.49 Female: 86.08 (FY2021)	Male: 83.89 Female: 86.46 (FY2025)	Male: 84.29 Female: 86.84 (FY2029)

Core Measures

- Promotion of proactive health development
- Enhancement of mental health
- Comprehensive promotion of long-term care prevention

Policy 8 — Strengthening Networks Connected to Welfare

Related SDGs Goals: 3 GOOD HEALTH AND WELL-BEING | 10 REDUCED INEQUALITIES

Vision

Residents facing health and physical concerns or troubles can consult with accessible welfare consultation services early on and connect with appropriate support and related organizations according to their situations. Even in cases where issues have become complex or compound making response difficult, various organizations will establish support systems to ensure no gaps in assistance, while continuing to stay connected at the district level, allowing each individual to live with purpose and role while helping one another.

Performance Indicators

Indicator Name	Unit	Current Status (FY2023)	Mid-term Target (FY2027)	Final Target (FY2031)
Percentage of residents who recognize the need for community mutual support and want to actively reach out to others according to the situation	%	20.8	23	25
Percentage of residents who are considered isolated*	%	13.8	12	10
Number of community resources that can serve as gathering places and support for local residents	Locations	1,816	1,890	1,970

*Refers to those who are isolated in terms of support from others: those who are not receiving support from administrative organizations for their anxieties and concerns, and who do not have anyone close to consult with when anxieties arise.

Core Measures

- Enhancement of accessible welfare consultation and community development
- Development of support systems that maintain connections in districts

Policy 9 — Promotion of Community Welfare and Infrastructure Development

Related SDGs Goals: 3 GOOD HEALTH AND WELL-BEING | 4 QUALITY EDUCATION | 10 REDUCED INEQUALITIES

Vision

Regardless of whether one has a disability or not, fundamental human rights are respected for each individual, and their dignity is valued. Additionally, necessary personnel in nursing care and medical fields have been secured and trained, and services in health, medical care, and welfare are interconnected and provided comprehensively, allowing everyone to continue living their own lives in their familiar communities with peace of mind.

Performance Indicators

Indicator Name	Unit	Current Status	Mid-term Target	Final Target
		(FY2023)	(FY2027)	(FY2031)
Percentage of residents who want to continue living in Setagaya City even if they need nursing or medical care	%	68.8	72	75
Percentage of residents who feel they can live with peace of mind while receiving necessary reasonable accommodation and support in the community	%	50.5	55	60

Core Measures

- Development of residential environment where people can live with peace of mind
- Initiatives toward solving local community issues
- Promotion of coordination between home medical care and nursing care
- Securing and training welfare personnel and supporting their retention

Disaster/Crisis Management

Policy 10   **Development of Safe and Secure Communities**   Related SDGs Goals

Vision   Each resident's disaster awareness has improved, and the disaster prevention capabilities of diverse entities and personnel, starting with neighborhood and community associations, have been enhanced. District communities can work together on rescue and evacuation efforts, improving regional disaster prevention capabilities. Additionally, residents maintain daily awareness of health crises and can take appropriate action based on accurate information when health crises occur. Furthermore, crime prevention awareness is shared within communities, and voluntary crime prevention activities such as neighborhood watch and community outreach are actively conducted. By implementing sustainable safety and security measures and by establishing systematic and continuous security foundations as well as strong cooperative systems with related organizations, residents can continue to live safely and securely.

Performance Indicators

Indicator Name	Unit	Current Status	Mid-term Target	Final Target
		(FY2023)	(FY2027)	(FY2031)
Percentage of residents who feel they can live safely and securely	%	73.2	77	80
Percentage of residents who have participated in community activities related to disaster prevention or crime prevention within the past year	%	13	16	20

Core Measures

- Enhancement of community disaster prevention capabilities
- Crime prevention initiatives
- Strengthening health crisis management systems

Policy 11   **Development of Disaster-Resistant Communities**   Related SDGs Goals

Vision   By advancing disaster-resistant community development, residents can live with peace of mind, equipped with resilience against natural disasters such as torrential rains and earthquakes. Additionally, when natural disasters occur, reconstruction planning, from district-level rescue and evacuation efforts to the restoration of residents' daily lives, can proceed quickly and smoothly.

Performance Indicators

Indicator Name	Unit	Current Status	Mid-term Target	Final Target
		(FY2023)	(FY2027)	(FY2031)
Percentage of residents who feel disaster-resistant community development is progressing	%	44.7	48	51

Core Measures

- Development of earthquake-resistant communities
- Urban pre-disaster recovery planning
- Development of flood control measures in urban planning
- Development of communities that are safe and secure in daily life

Environment/Recycling/Greenery

Policy 12 — Promotion of Carbon Neutrality

Related SDGs Goals: 7, 13

Vision

To pass on a good environment to future generations, the impacts and effects that residents' and businesses' actions and initiatives have on global warming and climate crisis are widely recognized. With residents, businesses, and the City working as one with all other entities, we aim to achieve net-zero greenhouse gas emissions by 2050 and are working on measures to combat global warming.

Performance Indicators

Indicator Name	Unit	Current Status (FY2023)	Mid-term Target (FY2027)	Final Target (FY2031)
Percentage of residents practicing carbon-neutral lifestyles	%	50.2	60	70
CO_2 emissions within the City	Thousand tons-CO_2	2,517 (FY2020)	1,493	1,152 (FY2030)

Core Measures

- Support for carbon-neutral actions by residents and businesses
- Implementation of carbon neutrality in public facilities and City administrative activities

Policy 13 — Creation of a Comfortable and Easy-to-Live Environment

Related SDGs Goals: 11, 12, 14

Vision

Clean air and water safety are ensured, and a good living environment is being passed on to the next generation. Through environmental beautification initiatives such as community and resident collaboration on preventing littering and smoking while walking, our community has become beautiful and continues to provide a comfortable living environment that makes everyone want to live here.

Performance Indicators

Indicator Name	Unit	Current Status (FY2023)	Mid-term Target (FY2027)	Final Target (FY2031)
Percentage of residents who feel their community is clean and pleasant to live in	%	75	79	83

Core Measures

- Promotion of local environmental beautification activities
- Promotion of smoking rules
- Development of a society promoting waste reduction and resource recycling

Policy 14 — Conservation and Creation of a Rich and Natural Environment

Related SDGs Goals: 13, 15

Vision

Core natural features like the Kokubunji cliff line and large parks are conserved, and networks of greenery and living creatures are expanding. Through collaborative maintenance and management of parks and activities at agricultural parks, residents experience the rich blessings of biodiversity in their daily lives. Additionally, the expanding greenery mitigates the heat island phenomenon and maintains healthy water circulation, preserving the local ecosystem and ensuring sustainability as an environmental residential city where people can continue to live safely.

Performance Indicators

Indicator Name	Unit	Current Status (FY2023)	Mid-term Target (FY2027)	Final Target (FY2031)
Percentage of residents who are "very satisfied" with greenery	%	16.9	25	31.4
Greenery rate	%	24.38	29	32.2

Core Measures

- Conservation and creation of Setagaya-style greenery
- Conservation of biodiversity
- Promotion of green community development through collaboration

Economy/Industry

Policy 15 Realization of a Sustainable Local Economy

Related SDGs Goals

Vision

In addition to environmental improvements that strengthen business operators' activity foundations, environments and foundations for creating new value are being developed through the promotion of new challenges by a wide range of businesses, fostering organic connections among diverse entities, realizing diverse working styles, and solving local and social issues from a business perspective. Through these environmental improvements, a sustainable local economy has been established that balances local economic development with solutions to local and social challenges, contributing to the realization of prosperous lives for residents.

Performance Indicators

Indicator Name	Unit	Current Status (FY2023)	Mid-term Target (FY2027)	Final Target (FY2031)
Percentage of businesses who consider it easy to conduct business activities	%	30.7	35	40
Level of sustainable local economic development	Points	100	130	135

Core Measures

- Strengthening foundations for ensuring sustainability of diverse local industries
- Promotion of business development and diverse working styles
- Promotion of social businesses aimed at solving local and social issues
- Promotion of business activities and ethical consumption considering local economic sustainability

Culture/Sports
Policy 16 Promotion of Culture and Arts

Related SDGs Goals

Vision

Regardless of age, gender, sexual orientation and gender identity including LGBTQ, nationality, whether or not one has a disability, or economic circumstances, everyone can enjoy culture and arts in both their daily life and on special occasions. From high-level arts to easily accessible cultural events, residents can casually experience diverse and wide-ranging culture and arts, and exchanges among those engaged in cultural and artistic activities are also flourishing. The community is becoming a place where people want to live and continue to enjoy themselves.

Performance Indicators

Indicator Name	Unit	Current Status (FY2023)	Mid-term Target (FY2027)	Final Target (FY2031)
Percentage of residents who are satisfied with the cultural environment in the City	%	65	70	75

Core Measures

- Creating an environment where everyone can experience and enjoy culture and arts
- Revitalization of cultural and artistic activities through support for and promotion of exchanges among community activity groups

Policy 17 Promotion of Lifelong Sports

Related SDGs Goals

Vision

Any resident can casually participate in and enjoy sports and recreation in their familiar local areas "anytime," "anywhere," and "throughout their lives."

Performance Indicators

Indicator Name	Unit	Current Status (FY2023)	Mid-term Target (FY2027)	Final Target (FY2031)
Percentage of residents who engage in sports or exercise at least once a week	%	53	65	70

Core Measures

- Health promotion through sports
- Realization of an inclusive society through sports
- Creating vibrant communities through sports

Urban Development

Policy 18 — Development of Attractive Communities

Vision

While preserving historic landscapes that reflect local character and culture and shaping distinctive townscapes, we are developing attractive scenery and vibrant hubs. This is attracting new residents and visitors from both inside and outside the City. We are also promoting district-specific community development through participation and collaboration, while creating pedestrian-friendly environments. As a result, mutual support among residents has strengthened, creating a community where everyone can live safely and comfortably.

Performance Indicators

Indicator Name	Unit	Current Status (FY2023)	Mid-term Target (FY2027)	Final Target (FY2031)
Percentage of residents who feel the living environment is good based on natural environment, townscape, and walkability of roads	%	72	73	74
Percentage of residents who feel their community is attractive and vibrant	%	66	67	68

Core Measures

- Promotion of community development based on district characteristics
- Creation of attractive and vibrant hubs
- Creation of walkable, attractive areas

Policy 19 — Development of Transportation Infrastructure

Vision

Through comprehensive engagement on "transportation-oriented community development" with cooperation and coordination among residents, transportation operators, and the City, we are working to enhance transportation networks and improve mobility in areas with limited public transportation access. By utilizing various transportation methods, everyone can move around comfortably, safely, and securely.

Performance Indicators

Indicator Name	Unit	Current Status (FY2023)	Mid-term Target (FY2027)	Final Target (FY2031)
Percentage of residents who are satisfied with transportation methods (means of mobility) within the City	%	67.5	71	75

Core Measures

- Revitalization of local public transportation
- Development of bicycle usage environment

Policy 20 — Development and Renewal of Urban Infrastructure

Vision

Regarding roads and parks, which are important urban infrastructure supporting residents' daily lives, development plans are being realized through collaboration with residents, businesses, and others, while appropriate maintenance and renewal are being implemented. This enables each resident to continue living safely and comfortably.

Performance Indicators

Indicator Name	Unit	Current Status (FY2023)	Mid-term Target (FY2027)	Final Target (FY2031)
Percentage of residents who feel urban infrastructure such as roads and parks is being properly developed, maintained and renewed, enabling them to live safely and comfortably	%	71.2	73	75

Core Measures

- Planned development of road network
- Planned development of parks and green spaces

Human Rights/Community

Policy 21 Respect for Diversity

Related SDGs Goals

Vision

Respecting individual dignity and regardless of age, gender, sexual orientation and gender identity including LGBTQ, nationality, or whether or not one has a disability, people can embrace diversity, live true to themselves, and value connections between people, realizing a society where no one is left behind.

Performance Indicators

Indicator Name	Unit	Current Status	Mid-term Target	Final Target
		(FY2023)	(FY2027)	(FY2031)
Percentage of residents who feel they can live safely and true to themselves	%	80.3	85	90

Core Measures

● Promotion of human rights understanding
● Promotion of gender equality
● Domestic Violence (DV) prevention initiatives
● Promotion of multicultural coexistence

Policy 22 Promotion of Community Development

Related SDGs Goals

Vision

Each resident has an interest in their community and has places where they can casually participate in daily life. While maintaining their roles, they live feeling connected to their community without becoming isolated. Through various organizations such as neighborhood associations, residents' associations, and NPOs, diverse community activities are being actively conducted, deepening connections among residents and organizations. While collaborating and cooperating with the administration, they are proactively working to solve increasingly diverse community challenges.

Performance Indicators

Indicator Name	Unit	Current Status	Mid-term Target	Final Target
		(FY2023)	(FY2027)	(FY2031)
Percentage of residents who participate in local community activities	%	17.1	21	25

Core Measures

● Promotion of community engagement and vitalization of local activities
● Promotion of collaboration and cooperation among residents and activity groups

Chapter 5: Action Plans

Field	Measure		Specific Action
Children/Youth	1-1	Creating an environment that protects children's rights and their best interests	Implement children's rights learning
			Enhance opportunities for children's participation and expression of opinions
			Raise awareness of reproductive health/rights among adolescents
	1-2	Enhancement of environment supporting children's growth	Develop and enhance children's centers
			Develop and enhance after-school children's clubs
			Conduct regional children's center consultations to build support networks
			Enhance outdoor play programs
	1-3	Enhancement of high-quality early childhood education and childcare	Provide training to improve early childhood education and childcare quality
			Improve quality of education/childcare facilities through community resources
	2-1	Promotion of support for child-rearing families	Enhance Child Care Support Plaza (Odekake Hiroba) services
			Enhance temporary childcare services
			Enhance childcare consultation at licensed childcare facilities and at-home childcare support services
			Develop community resources for childcare support
			Enhance parenting classes
			Enhance postpartum care services
	2-2	Support for children and child-rearing families who need assistance	Provide learning and living support through the "My Place" program for households in poverty and other eligible families
			Enhance holiday consultation services for single-parent families and other eligible households
			Expand parent-child group programs for developmental support
			Promote foster parent placement
			Improve staff skills for monitoring and supporting children at clubhouses
			Support young carers
	3-1	Enhancement of environment where youth can play active roles	Promote active participation among junior high and high school students
			Enhance youth exchange center programs
	3-2	Support for youth facing difficulties	Enhance youth consultation and support
			Support individuals who have left child welfare institutions and similar care facilities

Field	Measure		Specific Action
Education	4-1	Promotion of career and future design education	Provide career education programs
			Implement Setagaya inquiry-based learning methods
	4-2	Further advancement of education DX	Reform teachers' work styles through ICT utilization
			Enhance learning through ICT applications
			Develop information literacy skills in children/students
	4-3	Promotion of education that embraces diverse individuality	Implement inclusive education practices
			Enhance special needs education services
	4-4	Creating learning environments that acknowledge diversity and individuality	Research and develop attractive school models
			Offer diverse experiential learning opportunities
			Build partnerships with high schools, universities, and businesses
	5-1	Enhancement of consultation/support system and strengthening of coordination	Provide consultation and support through non-attendance support groups
	5-2	Enhancement of diverse learning environments and safe spaces	Enhance Hotto Room facilities and services
			Develop online support services
			Expand Hotto School programs
			Strengthen diversified learning schools (special schools for students with attendance issues)
	6-1	Creation of new library functions as a hub for knowledge, learning, and cultural information	Promote reading habits through diverse opportunities
			Expand non-visit library services
			Enhance library functions and services
	6-2	Enhancement of regular civic learning and promotion of social participation	Offer diverse learning and experiential opportunities
			Create opportunities to apply learning outcomes in the community
	6-3	Promotion of cultural assets conservation and awareness activities	Expand digital museum content
			Train and support cultural assets volunteers

Field	Measure		Specific Action
Health/Welfare	7-1	Promotion of proactive health development	Improve cancer screening rates through scientific approaches
			Promote accessible exercise opportunities in local areas
			Create health-promoting food environments
	7-2	Enhancement of mental health	Educate about mental health and mental illness
			Provide individualized and family-centered support
			Implement suicide prevention measures
	7-3	Comprehensive promotion of long-term care prevention	Raise awareness of long-term care prevention
			Provide long-term care prevention and lifestyle support services
	8-1	Enhancement of accessible welfare consultation and community development	Operate welfare consultation desks
			Build communities through participation and collaboration
	8-2	Development of support systems that maintain connections in districts	Coordinate multi-agency collaborative initiatives
			Provide continuous outreach support
			Implement participation support programs
	9-1	Development of residential environment where people can live with peace of mind	Support housing access for elderly, disabled and other vulnerable residents
			Ensure housing stability for single-parent households
			Create supportive environments for elderly requiring care
			Develop group homes for persons with severe disabilities
	9-2	Initiatives toward solving community life challenges	Enhance support for persons with mental disabilities
			Support children(persons) requiring medical care
			Create an environment aimed at realizing an inclusive society
			Support individuals experiencing social withdrawal
			Provide accessible consultation services for dementia
	9-3	Promotion of coordination between home medical care and nursing care	Raise awareness of home medical care and advance care planning (ACP)
			Build networks for home medical and nursing care
			Facilitate information sharing among home medical care and nursing care professionals
	9-4	Securing and training welfare personnel and supporting their retention	Improve training quality at welfare personnel centers
			Recruit, train and retain personnel for elderly care
			Create dementia-friendly communities
			Secure and retain personnel for disability services
			Secure and train specialized personnel for strengthening community life support functions for persons with disabilities

Field	Measure		Specific Action
Disaster/ Crisis Management	10-1	Enhancement of community disaster prevention capabilities	Conduct disaster prevention classes
			Train women disaster prevention leaders
			Promote at-home evacuation strategies
			Raise awareness through My Timeline creation
			Develop individual evacuation plans
	10-2	Crime prevention initiatives	Support security camera installation and maintenance
			Protect elderly and other vulnerable residents from special fraud
	10-3	Strengthening health crisis management systems	Establish cooperation systems with related organizations
			Improve response capabilities for new influenza and other emerging/re-emerging infectious diseases
			Set up medical relief headquarters system
			Implement medical relief activities
	11-1	Development of earthquake-resistant communities	Address densely built-up wooden housing areas
			Assess and reinforce building seismic safety
			Implement power line undergrounding
	11-2	Urban pre-disaster recovery planning	Develop pre-disaster recovery community plans
	11-3	Development of flood control measures in urban planning	Promote torrential rain countermeasures using green infrastructure
	11-4	Development of communities that are safe and secure in daily life	Manage and utilize vacant properties
			Widen narrow roads
Environment/ Recycling/ Greenery	12-1	Support for carbon-neutral actions by residents and businesses	Promote environmentally conscious housing
			Install public EV charging stations
			Implement energy conservation and renewable energy point program
			Expand Setagaya-version RE100
	12-2	Implementation of carbon neutrality in public facilities and City administrative activities	Convert official vehicles to EVs
			Transform public buildings into ZEB (Zero Energy Buildings)
	13-1	Promotion of community environmental beautification activities	Conduct district-wide "Setagaya Clean-up"
	13-2	Promotion of smoking rules	Improve smoking etiquette and compliance
	13-3	Development of waste reduction and resource recycling society	Reduce waste through source control
			Minimize food waste and loss
			Promote business-led 3R activities
	14-1	Conservation and creation of Setagaya-style greenery	Conserve greenery through green space conservation systems
			Create greenery through greening subsidy systems
			Conserve and nurture cliff line forests (City-owned land within the Kokubunji Cliff Line) through improved maintenance and management quality
	14-2	Conservation of biodiversity	Develop biodiversity-conscious parks and green spaces
			Enhance Setagaya Living Things Conference
	14-3	Promotion of green community development through collaboration	Raise awareness of greenery and biodiversity
			Create opportunities for agricultural experiences

Field	Measure		Specific Action
Economy/ Industry	15-1	Strengthening foundations for ensuring sustainability of diverse local industries	Revitalize local industries through targeted measures
			Strengthen local economic circulation
			Promote stable employment opportunities
			Recruit strategic personnel for local industry management
	15-2	Promotion of business development and diverse working styles	Develop businesses and talent that create new value and drive local industry innovation
			Support resident entrepreneurship and business creation
			Create environment enabling diverse work styles
	15-3	Promotion of social businesses aimed at solving local and social issues	Generate new industries through cross-sector collaboration
			Develop social enterprises that address local and societal challenges
			Solve welfare service issues using industrial expertise
			Strengthen agriculture-welfare partnerships
	15-4	Promotion of business activities and ethical consumption considering local economic sustainability	Enhance local tourism initiatives
			Raise awareness of urban agriculture among residents
			Encourage sustainable consumer behavior
			Advance industry development in environmental sectors, particularly carbon neutrality
Culture/Sports	16-1	Creating an environment where everyone can experience and enjoy culture and arts	Enhance art appreciation through district art collections
			Operate specialized libraries in art and literary museums
			Create cultural experiences through music and related events at civic facilities and exchange hubs
	16-2	Revitalization of cultural and artistic activities through support for and promotion of exchanges among community activity groups	Organize cultural exchange programs at Setagaya Public Hall, etc.
			Create opportunities to experience activities of local artists
			Support community-based cultural and artistic groups
	17-1	Health promotion through sports	Design achievement-oriented environments for runners and walkers
			Install boccia courts in public facilities
			Organize community sports events
			Facilitate access to sports activities
	17-2	Realization of an inclusive society through sports	Implement universal sports programs
			Create opportunities for sports-based community exchange
	17-3	Creating vibrant communities through sports	Partner with sports teams to promote information sharing and community vitalization
			Revitalize communities through sightseeing and town walking via running, jogging and walking
			Provide staff support and cooperation for community activities

Field		Measure		Specific Action
Urban Development	18-1	Promotion of community development based on district characteristics		Implement district-specific community development strategies
	18-2	Creation of attractive and vibrant hubs		Develop the Sangenjaya Station district
				Develop the Shimokitazawa Station district
				Develop the Futako-Tamagawa Station district
				Develop the Keio Line corridor districts
	18-3	Creation of walkable, attractive areas		Create resting areas with seating
				Design attractive landscapes
				Enhance park features and amenities
	19-1	Revitalization of local public transportation		Revitalize local public transportation systems
				Improve access in areas with limited public transportation
	19-2	Development of bicycle usage environment		Develop bicycle lane networks
	20-1	Planned development of road network		Construct and widen urban planning roads and major community roads
				Construct new and expand existing local roads
	20-2	Planned development of parks and green spaces		Establish new urban planning parks and green spaces
Human Rights/ Community	21-1	Promotion of human rights understanding		Organize human rights awareness events
				Support sexual minorities and promote understanding of gender diversity
	21-2	Promotion of gender equality		Facilitate work-life balance initiatives
				Advance women's participation across all sectors
	21-3	Domestic violence (DV) prevention initiatives		Deliver classroom presentations on dating violence prevention
				Strengthen DV prevention training programs
	21-4	Promotion of multicultural coexistence		Organize international exchange events
				Enhance consultation services for foreign residents
	22-1	Promotion of community participation and activation of community activities		Operate civic facilities and community exchange spaces
				Support and revitalize neighborhood associations
				Strengthen NPOs and civic activity groups
	22-2	Promotion of collaboration and cooperation among residents and activity groups		Coordinate district information liaison meetings
				Build platforms for community information sharing and participation

Chapter 6: Guidelines for Implementing the Plan

In implementing the core measures outlined in the plan, we will consider and advance specific actions in accordance with the following guidelines, while ensuring alignment with cross-sectoral plans and policies such as the "Plan for the Transition to New Administrative Management," "DX Promotion Policy," "Comprehensive Plan for Managing Public Facilities," and "Plan for Promoting Community Administration."

Promotion of SDGs

We will clarify the relationship between the plan's core measures and SDGs, and promote them in an integrated manner while being conscious of these relationships in developing cross-sectoral initiatives.

Promotion of DX

To improve convenience by thoroughly implementing resident-centered service design, we will reconstruct administrative services with a digital-first approach.

Development of Emergency and Crisis Management Systems

In the event of emergencies or crises, we will prioritize saving lives and mitigating damage.

Transformation of Organizational Management

Flexible Organizational Structure

While aiming for transition to an agile-type organization that enables dynamic response to challenges, we will develop flexible organizational structures while building partnerships with diverse social resources including the private sector.

Enhancement of Staff Capabilities in Policy Planning and Implementation

We will work on improving staff's policy planning ability and policy implementation capability, starting with the promotion of EBPM (Evidence-Based Policy Making).

Establishment of Administrative Service Delivery Framework

We will develop appropriate administrative service delivery systems through the utilization of digital technology and review of operational methods.

Appropriate Development and Maintenance Management of Public Facilities

Buildings

While systematically updating facilities that will reach 65 years of age, we will control the total volume of facilities subject to renewal by fiscal year 2036.

Urban Infrastructure Facilities

We will proceed with new construction and maintenance/renewal in a balanced way. Through the utilization of private sector vitality and new technologies, we will systematically advance the maintenance, renewal, and other aspects of urban infrastructure facilities by controlling costs related to preventive maintenance and life extension.

Information Dissemination/Disclosure

While strengthening both proactive and responsive communication approaches, we will enhance Setagaya's brand value through strategic and effective information dissemination.

Administrative Evaluation

We will establish indicators to assess and evaluate progress toward the Basic Plan's goals and visions. Through systematic performance evaluation based on the indicators, we will identify challenges and develop improvement measures for our policies and specific actions.

Cooperation and Coordination with Other Municipalities and International Society

In planning and promoting policies and measures, we will advance initiatives while building cooperative relationships, always being conscious of impacts on other municipalities and the global international society.

Chapter 7: Sustainable Municipal Administration

Toward realizing the "Vision of Future Setagaya to Pursue" set forth in the plan, we will advance initiatives from the following perspectives and aim to establish sustainable municipal administration:

- Promotion of administrative services from residents' perspective
- Enhancement of management capability through strengthening partnerships with diverse entities
- Optimization of management resources

SETAGAYA CITY
CITY Setagaya City Basic Plan

Summary

FY 2024 ▶ FY 2031

SETAGAYA CITY BASIC PLAN
