

Achieve goals you have set for yourself through individual and group study

Learn the words you will use in your classes

The Four Goals in the Remedial Classes

Learn to listen, speak, read, and write in correct Japanese

Learn to think through dialogue, and not just rely on knowledge

Returnee and Foreign Student Guidance Support Schools

There are four guidance support schools in Setagaya City. The responsible instructor in each school provides systematic Japanese language instruction to returnee and foreign students enrolled there.

Returnee and Foreign Student Counseling Office

Welcome

To All Returnee and Foreign Students

I feel anxious about school life in Japan! I can't understand Japanese!
Are you an elementary or junior high school student who feels like this?

Many children, students, and parents/guardians who have returned to or come to Japan feel anxious and uncertain as they adjust to their new environment. For such individuals and families, Setagaya City established the Returnee and Foreign Student Counseling Office in FY2003 and has been providing support for acquiring Japanese language skills, adapting to the Japanese lifestyle, and adjusting to classes and learning at Japanese schools.

The Returnee and Foreign Student Counseling Office serves foreign and returnee students enrolled in Setagaya City elementary and junior high schools, as well as their parents/guardians by providing educational counseling, Japanese language instruction, subject tutoring, and interpreter services. Please feel free to consult us anytime if you have questions or concerns.

The Returnee and Foreign Student Counseling Office supports children, students, and parents guardians through the following programs :
